Mobile, Powered Positioning

Surgical

Stretcher-Chairs

A Universal Care Platform™

TMM5 Series
Key Feature: Articulating Headpiece

Unique to TMM5 Surgical Stretcher-Chairs, the low-profile, dual articulating headpiece can be precisely positioned from 30° when fully extended to 60° when fully retracted. Additionally, this headpiece can be raised to a maximum of 3.5” or lowered to 0.9”. The perfect complement to powered positioning, this feature provides the adjustability clinicians demand and the comfort patients deserve.

Space Saving Footprint

A small footprint can make a big impression! In the seated position, the TMM5 requires half the space of a traditional stretcher and is easy to navigate through hallways, rooms, elevators and other close quarters. Its small footprint allows more units to be available for patients as well as easier storage.

The TMM5 can also have a positive impact on your financial bottom line. Reducing or eliminating patient transfers increases patient throughput and revenue potential while decreasing the likelihood of incurring the costs associated with staff injury and workers compensation claims.

TransMotion Medical Limited Warranty

- 7-year/Lifetime Warranty for Frame/Welds
- 2-year Warranty on Components (excluding batteries)

* The Limited Warranty for any goods sold as a "demonstration" unit shall be limited to a period of one (1) year.
Mobile, Powered Positioning

**Surgical Stretcher-Chairs**

### Standard Features

- **24” STANDARD SEAT WIDTH**  
  (Optional 28” seat width available)

- **500 LB PATIENT WEIGHT CAPACITY**

- **ARTICULATING HEADPIECE** allowing for easy repositioning

- **SELF-STORING PUSH BARS** swing down  
  (Not available on “X” models)

- **QUICK CHANGE BATTERIES (2)**  
  & WALL MOUNT BATTERY CHARGER  
  (A/C Plug-In model available)

- **PUSH-BUTTON PENDANT CONTROL** for exceptional patient positioning

- **SWING & TUCK SIDE RAILS** for easier and safer patient ingress/egress

- **MANUAL QUICK RELEASE BACKREST**

- **MEMORY FOAM CUSHIONS** for enhanced patient comfort

- **AUTO-EXTENDING FOOTREST**  
  (Optional Manual-Folding Footrest available)

- **BRAKE & STEER CASTER SYSTEM** for easy mobility

- **DUAL COLUMN BASE** provides a 25”-33” seat height  
  (Optional Triple Column base available)

### Custom Options

- **Dual (2) Column Base**  
  Seat Height: 25”-33”

- **Triple (3) Column Base**  
  Seat Height: 25”-40”

- **Wide 28” Width**

- **Battery**

- **A/C Plug-In Model**

- **Auto-Extending Footrest**

- **Manual Folding Footrest**
Rethink Operating Room Flow
The versatility of TransMotion Medical’s TMM5 Mobile Surgical Stretcher-Chair Series enables facilities to rethink how patients move through the operating room care cycle.

A comprehensive selection of options and accessories along with advanced standard features provides a customizable transport and treatment platform that allows patients to travel from admission to discharge on one piece of equipment.

The TMM5’s flexibility allows for utilization in many departments, including:

- Outpatient Surgery
- Ophthalmic Surgery
- Plastic Surgery
- Oral Surgery
- ENT
- Emergency (Eye/ENT Room)

Powering Safe Patient Handling

One Patient, One Surface™ from admission to discharge.
One Patient, One Surface
from admission to discharge.

**X-Seat Tilt Benefits**
- Comfortable Recline Positioning
- Pressure Point Relief
- Precise Patient Positioning with knee gatch feature for procedures and surgery
- 20° Trendelenburg and 5° Reverse Trendelenburg in stretcher position

**How an “X” differs from a standard TMM5:**
- 3” longer wheel base
- Brakes and steer caster pedals located in middle
- Changes patient surface length depending on foot option chosen
- No foot rest
- 10-button pendant
- No Self-Storing Push Bars

If “R” - upper rails are added to “X” option, it reduces Trendelenburg by 10° and eliminates radiolucent back. Requires “W” option.

---

**Key Feature: Surgical Support Leg**

Stability in a mobile surgical platform isn’t just a nice feature - it’s a requirement. Activated by an easy-slide lock/unlock lever, the surgical support leg adds rigidity to the TMM5 back section. **Enhanced stability when you need it the most.**

** Standard on TMM5-X models**
