IMPORTANT NOTES ABOUT THIS MANUAL

This Field Installation and Usage Instruction manual is intended to assist you with installation of your TransMotion Medical Product. Carefully read this manual before using the equipment or doing service / maintenance on it. If you are unable to understand the WARNINGS, CAUTIONS, and instructions, contact TransMotion Medical Customer Service before attempting to operate or service the equipment. Otherwise, personal injury or property damage may result.

To ensure safe operation of this device, it is essential that methods and procedures be established for educating and training staff on the safe and effective operation of the product.

TransMotion Medical reserves the right to change specifications without notice.

The information contained in this document is subject to change without notice.

Specifications listed are nominal, and operation may vary slightly from unit to unit due to tolerance variations.

Figures contained within this document may not depict exactly the model you have. This document may cover many closely related models.

SPECIAL NOTES - SIGNAL WORDS

Signal words are used in this manual and apply to hazards which could result in injury or property damage. The following is a definition of those signal words as used in this document:

![DANGER]

Indicates an imminently hazardous situation which, if not avoided, will result in death or serious injury.

![WARNING]

Indicates a potentially hazardous situation which, if not avoided, could result in death or serious injury.

![CAUTION]

Indicates a potentially hazardous situation which, if not avoided, may result in minor or moderate injury. It may also be used to alert against unsafe practices or potential property damage hazards.

![NOTICE]

Provides important information, makes special instructions clearer, or provides service personnel information to make maintenance easier.
TOOLS REQUIRED

A damp cloth (optional) and a scraper tool (optional) and a marking tool such as a pencil (optional) may be required to install Pad-Tapered Seat Cushion.

PARTS INCLUDED FOR PAD-TAPERED SEAT CUSHION

Pad-Tapered Seat Cushion is shipped and does not require added assembly. Part numbers vary with respect to the model.

If any features seem damaged due to shipping, contact TMM Service Department toll-free at 1-800-237-3377.
PREPARING CHAIR FOR PAD-TAPERED SEAT CUSHION INSTALLATION

1) Remove old pad from chair.
2) If desired, clean chair surface with a damp cloth. Allow time to dry.

⚠️ If you’d like to keep the old Hook and Loop strips, skip to installation.

3) If desired, remove old Hook and Loop strips. Use the scraper to help lift the adhesive off of the chair.

⚠️ Mark where the Hook and Loop strips are positioned so you can replace them in the same location.
4) Give the chair surface a final scrub down, and allow to dry.

5) Remove the loose “hook” strip from the pad. The “loop” strip will remain on the pad.
6) Remove the adhesive backing and place the "hook" strip on chair where previous "hook" strip was located.

INSTALLING PAD-TAPERED SEAT CUSHION

1) Recline the chair into the stretcher position for easy cushion placement.
2) Move any straps out of the way and place the pad on the chair, aligning Velcro®.

3) Reposition belts as needed. Use pendant to position stretcher chair as desired.
CAUTIONARY USAGE INSTRUCTIONS
When using this accessory, please follow these cautionary usage instructions:

⚠️ **CAUTION** TO PREVENT PERSONAL INJURY TO MEDICAL PERSONNEL, ENSURE PAD-TAPERED SEAT CUSHION IS PROPERLY INSTALLED AND SECURELY ENGAGED PRIOR TO TRANSPORTING PATIENT / CHAIR, AND PRIOR TO ADJUSTING POSITION OF LEG SECTION OF CHAIR.

PREVENTIVE MAINTENANCE
To ensure proper operation, this accessory should be inspected and maintained as described below.

Upholstery Care & Cleaning Instructions

Proper care is essential in ensuring the durability and reliability of TransMotion Medical upholstery. In general, all products should be:

1. Cleaned
2. Disinfected (in accordance with facility policy)
3. Rinsed
4. Allowed to air dry

It is important to note that the terms “disinfecting” and “cleaning” should not be used interchangeably. Disinfectants alone will not provide adequate cleaning since they do not have the appropriate properties to cut grease or oil and remove grime, hair or skin oils. The appearance, feel and performance of your upholstery may diminish if not cleaned properly.

Cleaning:

Remove hair, grime and body oils. Your upholstery should be cleaned on a regular basis with a damp cloth soaked in a mild soap and water solution. Avoid harsh detergents or chemicals that could damage the finish of your product. If disinfecting with manufacturer approved chemicals or bleach, the upholstery MUST be wiped off using clean water on a damp cloth and allowed to air-dry as a final step. Failure to rinse upholstery with clean water can result in a build-up of residues that, over time, may lead to drying, cracking or other undesirable changes to appearance, feel and performance.

Retain all instructional tags for future use.

Contact the manufacturer of the fabric used in your upholstery for a current list of approved disinfectants. TransMotion Medical Customer Care can assist with identifying which upholstery was used with your Stretcher-Chair.

For customer supplied and non-standard materials, please refer to the individual manufacturer’s cleaning instructions.
