IMPORTANT NOTES ABOUT THIS MANUAL

This Field Installation and Usage Instruction document is designed to assist you with installation of the TransMotion Medical Product. Carefully read this document thoroughly before using the equipment or doing service/maintenance on it. If you are unable to understand the WARNINGS and CAUTIONS and instructions, contact TransMotion Medical customer service before attempting to operate or service the equipment otherwise injury or damage may result.

To assure safe operation of this device, it is essential that methods and procedures be established for educating and training staff on the safe and effective operation of the product.

TransMotion Medical reserves the right to change specifications without notice.

The information contained in this document is subject to change without notice.

Specifications listed are nominal and may vary slightly from unit to unit due to tolerance variations.

Photographs and illustrations contained within this document may not depict exactly the model you have. This document can cover many closely related models.

SPECIAL NOTES - SIGNAL WORDS

Signal words are used in this manual and apply to hazards which could result in injury or property damage. The following is a definition of those signal words as used in this document:

⚠️ DANGER
Indicates an imminently hazardous situation which, if not avoided, will result in death or serious injury.

⚠️ WARNING
Indicates a potentially hazardous situation which, if not avoided, could result in death or serious injury.

⚠️ CAUTION
Indicates a potentially hazardous situation which, if not avoided, may result in minor or moderate injury. It may also be used to alert against unsafe practices or potential property damage hazards.

⚠️ NOTICE
Provides important information, makes special instructions clearer, or provides service personnel information to make maintenance easier.
TOOLS REQUIRED TO INSTALL LEG POSITIONING SYSTEM

Slotted Screwdriver

PARTS INCLUDED IN TMA18-15 KIT

Verify that you have all the parts listed. If not, contact TMM Service at 1-800-237-3377.

(2) Leg Positioners (one left side and one right side)
(6) Replacement Straps for Black Boots
(2) Altima Leg holder Pads

OTHER PARTS NEEDED

(2) Surgical Bar Assembly
(2) Clark Socket
INSTALLING LEG POSITIONING SYSTEM

Rotate side rails into lowered position until rail is firmly held by catch.

To install the surgical side bar, move pad aside and align pin and hole.

Remove adhesive from the black padding and stick it directly under the surgical side bar. Push the surgical side bar down firmly.
<table>
<thead>
<tr>
<th>Slide the Clark Socket onto the side rail.</th>
</tr>
</thead>
<tbody>
<tr>
<td>Position on surgical rail.</td>
</tr>
<tr>
<td>Slide the knee crutch pole of the appropriate leg (right/left) into the Clark Socket.</td>
</tr>
</tbody>
</table>
Position the knee crutch as shown.

Next, tighten the knob by turning the arm clockwise.
Adjust boot position and tighten knob clockwise.

Slide the black boot pad over the boot and adjust sleeves.
<table>
<thead>
<tr>
<th>Insert a white strap into the slot on the boot and secure.</th>
</tr>
</thead>
</table>

<table>
<thead>
<tr>
<th>Do the same on the opposite side. (Use 3 straps to hold the patient's foot in place.)</th>
</tr>
</thead>
</table>

<table>
<thead>
<tr>
<th>Repeat for other leg positioner.</th>
</tr>
</thead>
</table>
To adjust the leg holder, rotate lever counter clockwise until the leg holder can be positioned.

Hold the leg holder at desired position and rotate lever clockwise until tight.

To adjust the boot length, rotate knob counter clockwise until the boot will slide toward and away from patient.

Hold the boot at desired length and rotate knob clockwise until tight.
CAUTIONARY USAGE INSTRUCTIONS
When using this accessory, please follow these cautionary usage instructions:

⚠️ CAUTION ⚠️ TO PREVENT PERSONAL INJURY TO MEDICAL PERSONNEL AND / OR PATIENT, ENSURE KNEE CRUTCHES ARE PROPERLY INSTALLED AND SECURELY ENGAGED PRIOR TO TRANSPORTING PATIENT / CHAIR OR USE OF ACCESSORY

PREVENTIVE MAINTENANCE
To ensure proper operation, this accessory should be inspected and maintained as described below.

* Use of Facility approved detergents and disinfectants must comply with the instructions provided by the manufacturer(s) of those products.
Upholstery Care & Cleaning Instructions

Proper care is essential in ensuring the durability and reliability of TransMotion Medical upholstery. In general, all products should be:

1. Cleaned
2. Disinfected (in accordance with facility policy)
3. Rinsed
4. Allowed to air dry

It is important to note that the terms “disinfecting” and “cleaning” should not be used interchangeably. Disinfectants alone will not provide adequate cleaning since they do not have the appropriate properties to cut grease or oil and remove grime, hair or skin oils. The appearance, feel and performance of your upholstery may diminish if not cleaned properly.

Cleaning:

Remove hair, grime and body oils. Your upholstery should be cleaned on a regular basis with a damp cloth soaked in a mild soap and water solution. Avoid harsh detergents or chemicals that could damage the finish of your product. If disinfecting with manufacturer approved chemicals or bleach, the upholstery MUST be wiped off using clean water on a damp cloth and allowed to air-dry as a final step. Failure to rinse upholstery with clean water can result in a build-up of residues that, over time, may lead to drying, cracking or other undesirable changes to appearance, feel and performance.

Retain all instructional tags for future use.

Contact the manufacturer of the fabric used in your upholstery for a current list of approved disinfectants. TransMotion Medical Customer Care can assist with identifying which upholstery was used with your Stretcher-Chair.

For customer supplied and non-standard materials, please refer to the individual manufacturer's cleaning instructions.
