IMPORTANT NOTES ABOUT THIS MANUAL
This Field Installation and Usage Instruction manual is intended to assist you with installation of your TransMotion Medical Product. Carefully read this manual before using the equipment or doing service / maintenance on it. If you are unable to understand the WARNINGS, CAUTIONS, and instructions, contact TransMotion Medical Customer Service before attempting to operate or service the equipment. Otherwise, personal injury or property damage may result.

To ensure safe operation of this device, it is essential that methods and procedures be established for educating and training staff on the safe and effective operation of the product.

TransMotion Medical reserves the right to change specifications without notice.

The information contained in this document is subject to change without notice.

Specifications listed are nominal, and operation may vary slightly from unit to unit due to tolerance variations.

Figures contained within this document may not depict exactly the model you have. This document may cover many closely related models.

SPECIAL NOTES - SIGNAL WORDS
Signal words are used in this manual and apply to hazards which could result in injury or property damage. The following is a definition of those signal words as used in this document:

⚠️ DANGER
Indicates an imminently hazardous situation which, if not avoided, will result in death or serious injury.

⚠️ WARNING
Indicates a potentially hazardous situation which, if not avoided, could result in death or serious injury.

⚠️ CAUTION
Indicates a potentially hazardous situation which, if not avoided, may result in minor or moderate injury. It may also be used to alert against unsafe practices or potential property damage hazards.

⚠️ NOTICE
Provides important information, makes special instructions clearer, or provides service personnel information to make maintenance easier.
TOOLS REQUIRED

Tools are not required to install Side Rail Pad Set.

PARTS INCLUDED FOR TMA37-15 OR TMA171-15

Side Rail Pad Sets are shipped complete and do not require added assembly.

If any features seem damaged due to shipping, contact TMM Service Department toll-free at 1-800-237-3377.

PREPARING CHAIR FOR SIDE RAIL PAD SET INSTALLATION

1) Lower the chair into the horizontal position.
INSTALLING SEAT SIDE RAIL PAD SET (TMA37-15)

1) Hold the arm rail so that it is parallel with the floor. Place Side Rail Pad Set on arm rail.

⚠️ Position the arm rail as needed.

2) Place the pad perpendicular to the rail and pull the lower two straps under the side rail.

⚠️ Cushion of Side Rail Pad Set (attached with hook & loop) can be repositioned if needed.
3) Press the hook and loop strap against itself to secure. Repeat for other side.

4) Pull the top strap through the arm rail. Repeat for other side.
5) Place hook and loop straps down to secure.
6) Repeat for other arm rest.
## INSTALLING UPPER SIDE RAIL PAD SET (TMA171-15)

1) If upper side rails are permanently attached to the stretcher-chair, repeat the directions above.

2) If installing upper side rail pad set to removable upper rails, TMA52-15 or TMA53-15, remove rails from chair and set on flat surface with knob face up, as shown.
3) Place pad under upper side rails and line up Velcro with rail tubing at the 4 locations shown. Pull straps around tubing and press the hook and loop strap against itself to secure.

4) Reassemble upper side rails to surgical bars on chair.
CAUTIONARY USAGE INSTRUCTIONS

When using this accessory, please follow these cautionary usage instructions:

![CAUTION] TO PREVENT PERSONAL INJURY TO MEDICAL PERSONNEL, ENSURE SIDE RAIL PAD SET IS PROPERLY INSTALLED AND SECURELY ENGAGED PRIOR TO TRANSPORTING PATIENT / CHAIR, AND PRIOR TO ADJUSTING POSITION OF LEG OR BACK SECTION OF CHAIR.

PREVENTIVE MAINTENANCE

To ensure proper operation, this accessory should be inspected and maintained as described below.

* Use of Facility approved detergents and disinfectants must comply with the instructions provided by the manufacturer(s) of those products.
Upholstery Care & Cleaning Instructions

Proper care is essential in ensuring the durability and reliability of TransMotion Medical upholstery. In general, all products should be:

1. Cleaned
2. Disinfected (in accordance with facility policy)
3. Rinsed
4. Allowed to air dry

It is important to note that the terms “disinfecting” and “cleaning” should not be used interchangeably. Disinfectants alone will not provide adequate cleaning since they do not have the appropriate properties to cut grease or oil and remove grime, hair or skin oils. The appearance, feel and performance of your upholstery may diminish if not cleaned properly.

Cleaning:

Remove hair, grime and body oils. Your upholstery should be cleaned on a regular basis with a damp cloth soaked in a mild soap and water solution. Avoid harsh detergents or chemicals that could damage the finish of your product. If disinfecting with manufacturer approved chemicals or bleach, the upholstery MUST be wiped off using clean water on a damp cloth and allowed to air-dry as a final step. Failure to rinse upholstery with clean water can result in a build-up of residues that, over time, may lead to drying, cracking or other undesirable changes to appearance, feel and performance.

Retain all instructional tags for future use.

Contact the manufacturer of the fabric used in your upholstery for a current list of approved disinfectants. TransMotion Medical Customer Care can assist with identifying which upholstery was used with your Stretcher-Chair.

For customer supplied and non-standard materials, please refer to the individual manufacturer's cleaning instructions.
