IMPORTANT NOTES ABOUT THIS MANUAL
This Field Installation and Usage Instruction document is designed to assist you with installation of the TransMotion Medical Product. Carefully read this document thoroughly before using the equipment or doing service/maintenance on it. If you are unable to understand the WARNINGS and CAUTIONS and instructions, contact TransMotion Medical customer service before attempting to operate or service the equipment otherwise injury or damage may result.

To assure safe operation of this device, it is essential that methods and procedures be established for educating and training staff on the safe and effective operation of the product.

TransMotion Medical reserves the right to change specifications without notice.

The information contained in this document is subject to change without notice.

Specifications listed are nominal and may vary slightly from unit to unit due to tolerance variations.

Photographs and illustrations contained within this document may not depict exactly the model you have. This document can cover many closely related models.

SPECIAL NOTES - SIGNAL WORDS
Signal words are used in this manual and apply to hazards which could result in injury or property damage. The following is a definition of those signal words as used in this document:

⚠️ DANGER
Indicates an imminently hazardous situation which, if not avoided, will result in death or serious injury.

⚠️ WARNING
Indicates a potentially hazardous situation which, if not avoided, could result in death or serious injury.

⚠️ CAUTION
Indicates a potentially hazardous situation which, if not avoided, may result in minor or moderate injury. It may also be used to alert against unsafe practices or potential property damage hazards.

⚠️ NOTICE
Provides important information, makes special instructions clearer, or provides service personnel information to make maintenance easier.
TOOLS REQUIRED TO INSTALL SIDE RAIL RETAINING CLIP

A Philips screwdriver and 3/8” crescent wrench (shown below) are required to install the Side Rail Retaining Clip.

PARTS INCLUDED IN TMM-146-04 KIT

Verify that you have the part listed. If not, contact TMM Service at 1-800-237-3377.

(1) Side Rail Retaining Clip
INSTALLING SIDE RAIL RETAINING CLIP

1. Position chair as shown and locate the damaged side rail clip.

2. First, remove the damaged side rail clip: secure the bolt by using the crescent wrench. Remove screw by turning counter clockwise. screwdriver

⚠️ Be sure to save the screw and bolt for installation of the new Side Rail Retaining Clip.
3. Place the screw into the new Side Rail Retaining Clip.

4. Push the assembly into the mounting hole.

5. Screw the nut onto the back of the screw.
6. Position the retaining clip so that it is parallel with the fixture.

7. Use the crescent wrench to hold the bolt in place, and fasten by turning the screwdriver clockwise.
8. Pull the red lever to release the arm rail, and swing arm rail down.

⚠️ Adjust the Side Rail Retaining Clip if the rail does not mount smoothly by loosening the screw and repositioning. Tighten when satisfied with fit.
10. Side Rail Retention Clip is now ready for use!

CAUTIONARY USAGE INSTRUCTIONS
When using this accessory, please follow these cautionary usage instructions:

⚠️ CAUTION ⚠️
To prevent personal injury to medical personnel and/or patient, ensure side rail retention clip is properly installed and securely engaged prior to transporting patient/chair or use of accessory.

* Use of Facility approved detergents and disinfectants must comply with the instructions provided by the manufacturer(s) of those products.
Upholstery Care & Cleaning Instructions

Proper care is essential in ensuring the durability and reliability of TransMotion Medical upholstery. In general, all products should be:

1. Cleaned
2. Disinfected (in accordance with facility policy)
3. Rinsed
4. Allowed to air dry

It is important to note that the terms “disinfecting” and “cleaning” should not be used interchangeably. Disinfectants alone will not provide adequate cleaning since they do not have the appropriate properties to cut grease or oil and remove grime, hair or skin oils. The appearance, feel and performance of your upholstery may diminish if not cleaned properly.

Cleaning:

Remove hair, grime and body oils. Your upholstery should be cleaned on a regular basis with a damp cloth soaked in a mild soap and water solution. Avoid harsh detergents or chemicals that could damage the finish of your product. If disinfecting with manufacturer approved chemicals or bleach, the upholstery MUST be wiped off using clean water on a damp cloth and allowed to air-dry as a final step. Failure to rinse upholstery with clean water can result in a build-up of residues that, over time, may lead to drying, cracking or other undesirable changes to appearance, feel and performance.

Retain all instructional tags for future use.

Contact the manufacturer of the fabric used in your upholstery for a current list of approved disinfectants. TransMotion Medical Customer Care can assist with identifying which upholstery was used with your Stretcher-Chair.

For customer supplied and non-standard materials, please refer to the individual manufacturer's cleaning instructions.
